I notice that spiral notebook in the second picture... how did you get that? I saw them when I registered but they didn't seem to be handing them out.

I hope you brought a separate suitcase for everything you got. I had to leave so much in the hotel, nothing seemed to fit inside mine.

Good times, man, and you can never have too much loot! The best swag I saw was a couple of years back when people were carrying off the beaniebag chairs on the last day. Kicked myself for not getting one.

After a few years of crap bags, I'm pleased to see something that was more than a man-purse this year. The commodious bag at this year's Tech-Ed was superb.

Goodies !!!
