Anybody know a way or is able to download all presentations this year?

Microsoft TechEd provided a DVD one year when I went....was very usefull.

Thanks

I'd like to know where we can find them as well. They were promised in our labs/sessions. This was my first and probably last vmworld. Not impressed at all. Labs were either full or so slow you couldn't complete but the first few steps.

I too would like to be able to download all content (PDFs, PPTs, audio/video) as a single file, e.g. ZIP or ISO.

Download all....

It will have to be one heck of a large ISO. 😊

I have downloaded some of the sessions (including video + pdf)

So far over 10GB of data.

So good luck!

{color:#555555}Maish Saidel-Keesing{color},

Download all....

Can you post a link to where you are finding the vids and pdf files? I have looked all over the site and can not find them.

Thanks in advance,

jamey
