Hello.

As I'm going to participate at VMworld 2010 - San Francisco this year, I would like to know when registering is possible and what the exact early-bird price will be ?

Thanks in advance.

Kind regards Anders Pier.

Pre-registration will be going up at the end of this week. Official registration and pricing will be available at a later time.

But how can one pre-register, if I don't know the price ? Will the prices be here within 1, 2, 3 months or ?

/Anders

Pre-registration is a sign-up to be notified when actual registration with payment goes live.

Pricing (early bird or other) will be made available by early March, before actual registration goes live.

Call for papers will also be opened in the same time frame.

Thanks a lot :-)

Kind regards

Anders Pier.

Right now - when you try to PRE register - - the service bombs out when you hit submit.

I have tried in both Firefox and IE.

This was a temporary issue with the confirmation page which has been resolved now.  
Note: Pre-registration data was still being submitted.

thanks,

VMworld.com Team

Registration will be available by mid-April and notice will be sent out to all pre-registrations

thanks.

Can someone tell me how many PSO credits VMworld typically costs? Based on the \$\$ I would expect it to be 15?

When will registering for VMworld 2010...

thanks
